

HOPE RENEWED FOR SETTLEMENT OF RAIL STRIKE

Policy Committee of Ninety Is Summoned to Meet in Chicago Next Monday

Chicago, Sept. 7.—With the rail-way shop craft policy committee of ninety summoned to meet in Chicago next Monday, there is hope of a partial settlement of the rail strike in the near future. It will be the first time since railroad executives and union chiefs broke off negotiations at the end of August.

Railroad executives generally have been conservative and have had no consideration in conferences with union leaders, or declined to comment on the strike or on an impending settlement.

Chairman Is Informed

The call from the policy committee was issued at the Chicago strike meeting, which was held yesterday by the railway employees department. An executive committee was sent out to the general chairman of the shop craft organizations over the names of the secretary of the department, whose whereabouts had remained unknown since the government's strike injunction was granted. Federal Judge Wilkes last Friday.

The meeting of shop craft leaders was called for the same day which Judge Wilkes issued his injunction, to make a general application to make the injunction permanent.

A spokesman for the government announced at Washington that the government would take no action whatever proceedings would be taken against the few disgruntled labor leaders who had made extraordinary speeches in connection with the strike.

He said the government had been somewhat hampered by the difficulty of proving every charge, and was awaiting the ruling officials of the shop craft organizations to decide whether to demand that Jewish and his associates be granted a prompt avoidance of the injunction.

Demand Imposition

Measures to impose a blockade in the east joined in demands for the immediate release of the strikers, Daugherty and Judge Wilkes because of the injunction.

At the meeting of the American Federation of Labor executive council, meeting at Atlantic City, a demand was made for a court battle to vacate the injunction.

Although talk of a general strike of all shop craft workers was tested against the injunction was presented at Atlantic City, members of the A.F.L. were in agreement in position to such a course declaring that they were prepared to go to "the wall."

The chief demand of the shop craft executives, association with other rail heads, said the roads were ploughed up and many employees were coming back to work.

Thus was Madame Siron's best attempt at channel swimming.

The women's endurance record in the English channel was held by Mrs. Hilda Welling of England. It was 16 hours, 40 minutes.

Paris, Sept. 7.—Senator De Eicher, explaining in Le Journal his argument in favor of the German war loan, said that the German government, for reconstruction work in the former battle zones, still has the largest sum available, as far as German labor. The offer of the German army, however, was feared and by the arrangement, the German army, in view of that labor will be utilized in France.

As regards the commutation of six per cent, he said the German government had agreed to pay the amount to publish the amount of the commutation, but he said there were concealed provisions in the contract which respect it was in agreement with the German government and the architects' federation. Senator De Eicher said that he believed the German army would not serve all clauses of the contract when it came.

Greeks to Evacuate Asia Minor At Once; Turk Nationalists Are Rapidly Drawing up to Smyrna

**Greek Losses Since Opening of Campaign are Placed at

Constantinople, Sept. 7.—The French, British and Italian head dramatists here have informed a representative of the Turkish Nationalist government that the Greeks are ready to evacuate Asia Minor if an immediate armistice is granted, the Havas Agency announced. They suggested that officers be delegated by the Athens and Ankara governments.

At the meeting of the American Federation of Labor executive council, meeting at Atlantic City, a demand was made for a court battle to vacate the injunction.

Although talk of a general strike of all shop craft workers was tested against the injunction was presented at Atlantic City, members of the A.F.L. were in agreement in position to such a course declaring that they were prepared to go to "the wall."

Close to Smyrna

The rapidly advancing army reported to have been within 30 miles of the city, and it is possible that the forces of the Greeks are growing more critical. The British are reported to be pushing destroyers to cover the retreat of the Greeks.

The French and Italians have been ordered marines and sailors to serve a volunteer corps.

Reports from Thessaloniki, with Venetian officers, have arrived and are organizing resistance. And Cassala, 25 miles east of Smyrna, are reported in full retreat.

There was no agreement of the shop craft executives with other rail heads, said the roads were ploughed up and many employees were coming back to work.

D.F.A. Will Incorporate Under Dominion Charter

WINNIPEG, Sept. 7.—After a three day session, the annual meeting of the Dominion Football association was brought to a close to-night at the Hotel Fort Garry, and disposed of several important matters of interest to the sport.

Cooperation dominated the session of the D.F.A., and the business on hand was quickly moved.

David W. Baker, president of the association and Tom Hollis of Toronto, was authorized to seek a charter.

Council members, it was decided, will be elected by the executive and on the request of the British Columbia representatives a resolution was passed that all players who participated in the recent Canadian football games in British Columbia free agents.

The executive announced the meeting of the D.F.A. would be held in Toronto between Ulster United and the Canadian team, and those who were invited in the Canadian final game. The winners of this game will receive their medals.

Recommend Adoption Financial Statement as to Scottish Tour

WINNIPEG, Sept. 7.—In the interest of peace and the future of the game, the executive of the Dominion Football association in session here to-day adopted the much-discussed financial statement.

A resolution to this effect, proposed by Mr. Hollis, was carried.

The resolution reads:

"Resolved, That having received the executive's report and statement in respect to the Scottish tour, we are of the opinion that the arrangement that same is not in accordance with the oft-expressed promise of the Canadian football association that a full and comprehensive statement would be made before the tour would proceed. Before this general meeting, and since we have communicated our views to the executive, we desire, entirely in the interest of peace and the future of the game, that the executive in this meeting accept the statement, notwithstanding the fact that the same has not been fully received and adopted and that we devote all energies to the rehabilitation of the game."

The annual meeting of the Dominion Football association adjourned this morning without any further business being transacted.

Dr. G. L. Gilmore of Winnipeg gave

NEW CHAMPLAIN MONUMENT which is to be erected at Orillia, Ontario. It is the work of Vernon March, an Englishman. The monument measures 12 feet, and the pedestal, which is 18 feet, will give it a total height of 30 feet.

LOCAL DOCTOR MADE PRESIDENT ALTA. MEDICOS

Dr. A. F. Anderson Is Honored with Highest Post in Profession's Command

A. A. F. Anderson of Edmonton was elected president of the Alberta Medical Association for the coming year by the convention of that association held in the University Medical building Thursday afternoon. Among the other officers chosen by the office Dr. Anderson was elected the popular choice the only other nominee being a nominee of the president and who ran to stand for election, Dr. H. H. McGuire, Dr. Edgar Allan of Edmonton secretary and Dr. C. E. C. Cameron treasurer.

The convention met with the entire medical profession of the province to elect all of the officers by acclamation.

A new medical discovery in the form of an extract of animal origin used for the treatment of tuberculosis was demonstrated by Prof. J. B. Coffey, department of biochemistry, who made the discovery some months ago and has now found a way to extract the rabbit before the convention lived up to its claim made for it. With the exception of the animal, which is the only one to benefit, the treatment can be applied more successfully with the disease.

In a year it is expected that this extract will be general in all bars of medicine throughout the country.

Another medical discovery which is to be made available to the public is the new low medical practitioners in those districts where there are no medical facilities.

Principals Riddell said that Prof. Smith had a five-year contract, and he intended to press his case with the college.

"RETURNED MAN SLACKER" GREAT PROBLEM NOW

Lots of Openings for Men Willing To Work Says Major L. F. Howard.

"One of the greatest problems to be faced in regard to the unemployment of veterans of the war, is the 'returned man slacker,'" said Major L. F. Howard, Dominion superintendent of eastern offices employment service, in a speech he made yesterday at the Macdonald Inn on his way to Victoria, where he is to speak for the Dominion department of labour. He left Edmonton Thursday. He has been in the west for the past two years and in the coming winter, "there will be lots of work to be done," he declared. "As far as where there is work to be had with the mines opening and bush work, there will be all kinds of openings for those men willing to work." The major said the agricultural markets of the west are about full now, and the lumbermen are looking for bushwork in the winter in the mountain timber reserves. It is admitted that the Canadian Pacific railway would have a shortage of cars to transport lumber, but the men available for bush-work in the east must, at the same time, be spared for the work of clearing the forests for logging."

Men Want Two Months.

"I have found the best conditions in Edmonton this morning, and I hope to find more business awaiting for me than I can possibly get in the harvest fields. The farmers cannot afford to pay us wages, but we have other work available for those willing to work, but they are inundated in getting it, and we are not doing well at all," he said. "A man did not even want to work for us, and he was male regularly. He was not otherwise, and he received his pay regularly. His wife and children were not even having to work to live."

Retired Soldier.

"There was one retired soldier who was offering his life in exchange, but he was not over well paid for what he demanded. He wanted \$100 a month, as well as a place to live, but he could not get it. He was a man of good physique, but he was not otherwise, and he received his pay regularly. His wife and children were not even having to work to live."
